As-Built Certification Form

Date: _____ Permit No. _____ Tax Map No. _____

Project: _____

Address: _____

Type of Facility:

Detention: ☐ Retention: ☐ Infiltration: ☐ Other: ☐

Please provide the following elevations, both as designed on the construction drawings and as-built. If the elevation is not applicable for this site, indicate appropriately.

Facility Name, as shown on plan (i.e. Pond 1): _____

Pond/Storage Elevations

Bottom Elevations: Designed: _____ As-Built: _____ Diff: _____

Top of Bank Elevations: Designed: _____ As-Built: _____ Diff: _____

Permanent Pool Elevations: Designed: _____ As-Built: _____ Diff: _____

Emergency Spillway Elevations: Designed: _____ As-Built: _____ Diff: _____

Pond/Storage Areas

Area at Bottom: Designed: _____ As-Built: _____ Diff: _____

Area at Permanent Pool: Designed: _____ As-Built: _____ Diff: _____

Area at Top of Bank: Designed: _____ As-Built: _____ Diff: _____

Outlet Control Structure Elevations

Designed Outlet Device Type and Dimensions:

Type: _____ Elevation: _____

Dimensions: _____

As-Built Outlet Type and Dimensions:

Type: _____ Elevation: _____

Dimensions: _____

Primary Outlet

Designed Outlet Device Type and Dimensions:

Type: _____ Elevation: _____

Dimensions: _____

As-Built Outlet Type and Dimensions:

Type: _____ Elevation: _____

Dimensions: _____

Secondary or Overflow Outlet/ Emergency Spillway

Designed Outlet Device Type and Dimensions:

Type: _____ Elevation: _____

Dimensions: _____

As-Built Outlet Type and Dimensions:

Type: _____ Elevation: _____

Dimensions: _____

	YES	NO
Are energy dissipators, headwalls and spillways properly constructed and installed according to the plans?	<input type="checkbox"/>	<input type="checkbox"/>
Are embankments and/or excavated slopes stable and covered in a suitable manner as to prevent erosion?	<input type="checkbox"/>	<input type="checkbox"/>
Is the stormwater drainage system (pipes, catch basins, etc.) constructed in accordance with the approved plans?	<input type="checkbox"/>	<input type="checkbox"/>
Has accumulated sediment been removed from the stormwater detention and retention ponds?	<input type="checkbox"/>	<input type="checkbox"/>
Are energy dissipators, drainage structures, and storm lines free of sediment and debris?	<input type="checkbox"/>	<input type="checkbox"/>
Has the disturbed area for the entire site achieved 70% stabilization (permanent ground cover and 70% stable per square yard)?	<input type="checkbox"/>	<input type="checkbox"/>
Infiltration BMPs and underground systems require a letter from a manufacturer representative or qualified person of proper installation. Is this letter attached?	<input type="checkbox"/>	<input type="checkbox"/>

Post Developed Impervious Area

TMS Number	Impervious Area (acres)	Impervious Area (sq. ft.)

This statement must be signed by a General Contractor, Engineer, or other Professional who oversaw the construction of this project and can attest to the compliance of the construction to the design.

By placing my signature on this paper, I certify that this stormwater management facility and its associated structures are constructed according to the approved design and associated Construction Plans on file with Georgetown County and SCDES. I further certify that all elevations and areas provided on this form were collected by a Registered Land Surveyor licensed in the state of South Carolina are accurate and true to the best of my knowledge. For underground detention and water quality management systems, I certify that they were designed and installed per the manufacturer's recommendations and the approved plans. I understand that any significant deviation between the designed and as-built elevations and areas may require additional work to be performed by myself and/or my company to ensure that the facilities are constructed as designed to ensure the functionality of the system to meet Georgetown County Stormwater Requirements.
